

UE5 Learning Path System

Visual Mockup Gallery - 20 Screens

Viewer (Dark UE5 Theme) + Builder (Light Browser Theme)

Prepared for Stakeholder Review

Part 1: Viewer

Learner Experience Inside UE5

Dark-themed web pages loaded in UE5 Web Browser Widget.
This is what learners see when consuming a learning path.

1. Path Overview - Chapter List

Entry point showing all 8 chapters with progress indicators and a Start button.

2. Progress Sidebar

Collapsible sidebar showing chapter completion status and current position.

3. AI Transition Step

AI-generated bridge showing learning objectives and expected outcomes.

4. Content Video Step

YouTube embed with AI-generated Why This Matters augmentations.

5. Content Doc Page Step

Documentation rendering with AI-highlighted relevant snippets.

6. Content RAG Pipeline Step

AI-generated instructional content from indexed knowledge sources.

7. Quiz - Question View

Knowledge check with multiple choice, one question at a time.

8. Quiz - Passed

Learner scored at or above passing threshold. Shows results summary.

9. Quiz - Retry Needed

Learner did not pass. Follow-up explanations and retry button.

Chapter 4: Setting Up AI Perception • Quiz Results

Not Quite — Let's Try Again

2/5 (40%)

You need 80% to pass.

Here's What to Review

- The learner missed **AI mronser** and key concepts setting up AI perceptions that determine.
- The learner missed **lloeden tphorns** methats to systems aicoraming endoremends.
- The **AI Perception** aften arenha concepts trmitte the video limts in the berne with persanity, and intenmation, to theschants.

Tip:
Review the video in this chapter before retrying.

Review Chapter

Retry Quiz

10. Chapter Complete

Celebration screen between chapters with accomplishment summary.

11. Path Complete

Final completion with skill badges and next path suggestions.

Part 2: Builder

Author Tool - Browser-Based

Light-themed web app for creating and managing learning paths.

Runs in a normal browser, no UE5 constraints.

12. Creation Wizard - Path Name

Step 1: Author enters the path title and description.

The screenshot shows a web application interface for 'Pathweaver'. A modal window titled 'Create New Path' is centered on the screen. The modal has a progress bar at the top with four steps: 1. Name (active, blue dot), 2. Level (grey dot), 3. Industry (grey dot), and 4. Build (grey dot). Below the progress bar, the 'Path Name' section has a text input field containing the placeholder text 'e.g. Set up an Unreal AI to patrol and chase the player'. The 'Description (optional)' section has a larger text area with the placeholder text 'Provide a brief summary of what this learning path covers, who it's for, and the key outcomes.' At the bottom of the modal are two buttons: 'Cancel' and 'Next'.

Create New Path

1. Name 2. Level 3. Industry 4. Build

Path Name

e.g. Set up an Unreal AI to patrol and chase the player

Description (optional)

Provide a brief summary of what this learning path covers, who it's for, and the key outcomes.

Cancel Next

13. Creation Wizard - Skill Level

Step 2: Select Beginner (<5h), Intermediate (5-15h), or Advanced (10-25h).

14. Creation Wizard - Industry Focus

Step 3: Tag with Games, Film and TV, Architecture, Simulation, etc.

15. Pipeline Canvas - Main Editor

Three-column layout: Step Palette, Chapter/Step Canvas, Config Panel.

16. Step Config - Video

Configure video URL, source, timing, and AI augmentations.

17. Step Config - Quiz

Configure question count, passing score, and retry settings.

The screenshot displays the 'Path Builder' interface. On the left, a flowchart shows a sequence of steps: a blue box, a checkmark icon, a 'Configure: Quiz' box (highlighted with a blue checkmark), and a 'Run' box. The right panel is titled 'Configure: Quiz' and contains the following settings:

- Path:** Navigation Mesh Best Practices
- Question Count:** 5 (dropdown menu)
- Passing Score:** 80% (slider bar)
- Allow Retry:** ☒ (toggle switch)
- Question Bank:** navmesh-basics (12 questions) (dropdown menu)
- Questions Preview:**
 - Q1: What defines a navigation mesh?
 - Q2: Which algorithm is commonly used for pathfinding?
 - + Add Question Manually
- Footer:** Quiz banks are aspirational — questions can be manually entered for now.
- Buttons:** Apply (blue), Delete Step (trash icon)

18. Preview Mode

Split view: builder on left, dark-themed viewer simulation on right.

19. AI Auto-Build

AI generates a full path from a topic description with live progress.

20. Path Library

Browse, filter, and manage all learning paths with status badges.

The screenshot displays the 'Path Builder' interface for managing learning paths. On the left is a sidebar with navigation links: Dashboard, Paths (selected), Courses, Analytics, and Settings. The main area is titled 'Learning Paths' and includes a 'Create New Path' button. Below the title are filters for Search, Skill Level, and Industry, along with status tabs: All, Draft, Review, and Published. The main content area shows a grid of six learning path cards, each with a title, skill level, industry, chapter count, duration, status badge, and creator information.

Path Title	Skill Level	Industry	Chapters	Duration	Status	Creator	Last Modified
Set up AI to patrol and chase the player	Intermediate	Games	8 chapters	6 hrs	Published	Alice Smith	Oct 26, 2023
Data Analysis Fundamentals	Beginner	Finance	12 chapters	15 hrs	Published	Bob Johnson	Oct 25
Advanced JavaScript Techniques	Advanced	Tech	10 chapters	10 hrs	Draft	Charlie Lee	Oct 24
Introduction to Marketing	Intermediate	Marketing	6 chapters	4 hrs	Published	David Chen	Oct 23
Product Design Workshop	Beginner	Design	9 chapters	8 hrs	Review	Eva Brown	Oct 22
Cloud Computing Basics	Beginner	Tech	7 chapters	5 hrs	Published	Frank White	Oct 21
